ANNUAL REPORT

Secretary's Office, Dec. 15, 1932.

To William F. Craig, *Director of Registration*.

Sir:—In compliance with the requirements of chapter 112 of the General Laws, the Board of Registration in Veterinary Medicine submits its annual report for the fiscal year 1932.

Nine persons have applied for registration during the year, all of whom were examined. Also four persons have been examined who applied for examination previous to this year. All of these applicants were graduates of veterinary schools authorized to confer degrees in veterinary medicine, except one.

The number of individuals examined this year is thirteen, and the results are given in the following table:—

	Examined.	Registered.
December examination, -----	4	3
July examination, -----	11	7
	15	10

The following men successfully passed our examinations during the year:—

Name.	Graduate of—
Hillman, John Wilson, -----	University of Pennsylvania.
Lawrence, Robert Parker, -----	University of Pennsylvania.
Pieper, Niels William, -----	New York State Veterinary College.
Sachs, Lloyd Herman, -----	New York State Veterinary College.
Smead, Harold Louis, -----	New York State Veterinary College.
Stiles, Sidney Wilson, -----	University of Pennsylvania.
Streeter, Charles Eugene, -----	Ohio State University.
Treat, Lester Albert, -----	Ohio State University.
Witt, Raymond Francis, -----	Ohio State University.
Woelffer, Elmer August, -----	New York State Veterinary College.

Since the organization of the Board, Jan 1, 1904, 564 certificates of registration have been issued.

During the year the Board has held four meetings and two examinations.

According to the rules of the Board, all applications for examination must be made upon blanks furnished for this purpose by the Secretary, and returned to him at least three days before the date of examination, properly executed, and accompanied by the fee of \$15. A ticket or letter of admission to an examination, showing the date and the applicant's number, is issued on the receipt of this application. Tickets are also issued to rejected applicants entitled to a re-examination if applied for three days before the date of

examination. By a ruling of the Board, examinations are held twice annually, in June or July and in November or December. The law requires that these examinations shall be wholly or in part in writing, in the English language, and shall be of a scientific and practical character. They shall include the subjects of anatomy, surgery, physiology, animal parasites, obstetrics, pathology, bacteriology, diagnosis and practice, therapeutics, materia medica and veterinary dentistry, and shall be sufficiently thorough to test the applicant's fitness to practice veterinary medicine. There is usually an average of eight questions in each subject, and the answer to each question is marked on a scale of 0 to 100, after which the applicant's general average is computed. In this connection it should be borne in mind that the name of the applicant is unknown to any examiner, with the exception of the secretary. Each examination book bears a number, upon which the examiner reports his rating.

Since its organization the Board has held 56 examinations.

During the life of the Board there have been 706 applicants for registration in veterinary medicine; of this number 564 were granted registration, 138 were refused registration, and 4 have not appeared for examination.

The following table lists the veterinary schools from which applicants were graduated and the results of their examinations. The table also lists the number of non-graduates who have been registered and those refused registration:—

For the purpose of convenience the "correspondence school" is listed as a school, although it is not chartered and has no right to issue degrees. It is to be noted that 14 men, graduates of this school, have been examined, who assumed that they had received a proper training in veterinary medicine, yet failed by our examination to demonstrate any knowledge of veterinary science. The result shows the absolute impracticability of teaching veterinary

medicine by correspondence. This school uses the mails extensively to send out literature describing its efficiency and success, holding out the promise to credulous persons that by studying its courses they will be fully prepared to practice veterinary medicine, giving them a diploma which represents them as graduates from a regular school, and from which the word "correspondence" is intentionally omitted. It is to be regretted that the United States mail authorities do not refuse the use of the mails to this and similar schools.

Graduates of the following veterinary schools are now eligible to membership in the American Veterinary Medical Association:—

Alabama Polytechnic Institute, College of Veterinary Medicine.
 Colorado State College, Division of Veterinary Medicine.
 Indiana Veterinary College.
 Iowa State College, Division of Veterinary Medicine.
 Kansas State Agricultural College, Division of Veterinary Medicine.
 L'Ecole de Medicine Veterinaire, Universite de Montreal.
 Michigan Agricultural College, Division of Veterinary Science.
 New York State Veterinary College at Cornell University.
 Ohio State University, College of Veterinary Medicine.
 Ontario Veterinary College, Toronto University.
 State College of Washington, College of Veterinary Science.
 Texas Agricultural and Mechanical College, School of Veterinary Medicine.
 University of Pennsylvania, School of Veterinary Medicine.

During the past year the Board has investigated complaints against nine individuals.

The receipts of the Board, which according to law have been paid into the treasury of the Commonwealth, have been as follows:—

Form C, fees at \$15	\$150.00
The expenses of the Board have been as follows: —	
Salaries and travelling expenses of members,	\$673.72
Investigating complaints,	14.71
Stenography and typewriting,	79.50
Printing and postage,	24.36
Miscellaneous,	25.08
Total,	<hr/> \$817.37

Respectfully submitted,

LANGDON FROTHINGHAM, *Chairman.*
